

Waste Technician (Seasonal – 9 Month)

Posted: February 16th 2022

Job Description

Waste Technician (Seasonal: April to December)

Full time , Seasonal (9 month) – **ALL Relevant Training Provided**

This Job suits someone who is flexible and enjoys a VAREITY of work experiences. Approximately 80% of your time will be on-site as a waste technician handling both non-hazardous and hazardous waste materials. This involves shipping/receiving, collection, sorting and packaging and processing materials. The other aspect of this position (approx. 20% of your time) will be working Household Hazardous Waste collection events where residents are dropping off their paint, oil, and other items.

- \$16.00/hr.-17.00/hr (Depending on Experience and Skills)

Our people have made BRENDAR one of the most trusted hazardous waste management companies in Ontario over the last 25 years. Placing a strong emphasis on customer service, environmental responsibility, and a respectful enjoyable work environment amongst our staff. We have worked hard to earn a reputation for providing trusted, dependable, and flexible waste management and electronic recycling solutions for our clients.

At BRENDAR we are not simply looking to “fill a position”, rather we are always looking for good people to help develop and expand our capabilities. If you are an individual who takes exceptional pride in your work we look forward to meeting with you.

Responsibilities:

- Shipping/Receiving
- Managing Inventories of hazardous and non-hazardous wastes
- Sorting, identification, processing and labeling of waste materials
- Prepare/review shipping documents
- Loading/unloading materials (physical)
- Assist with household hazardous waste collection events (various sites)
- Assist with processing activities
- Follow all health & safety requirements
- Some Saturdays required

General Qualifications & Skills:

- Excellent customer service and interpersonal skills
- Responsible, reliable and self-starter
- Physically fit
- Environmentally conscious person
- Knowledge of WHIMS and strong safety practices
- Forklift experience (An asset)
